AAT-150 Latex Seam Sealer Specification Sheet

Description:

AAT-150 is a high strength, natural latex adhesive formulated to seal carpet edges prior to hot melt seaming, for sealing stitches on hand sewn seams and for “tape and latex” seaming. AAT-150 is widely used to prevent raveling, for binding, for replacing damaged nap and for strengthening worn or loose backings. AAT-150 contains no solvents and is 0 VOC as defined by the SCAQMD Rule 1168. AAT-150 is not designed for PVC or Vinyl backed carpets.

Shake or stir seam sealer before using. Apply seam sealer directly to carpet’s primary backing along seam area. For “tape and latex” seaming apply a uniform coat of seam sealer to the tape. Heavily stitched backings may require more adhesive. To ensure best seam result, do not leave seam sealer open for more than ten minutes. When the seam is made, allow the seam sealer to dry thoroughly. AAT-150 curing will take up to 48 hours.
